

Tutorial: How to Install a Dynamic Stamp in PDF-XChange Editor

1. Copy the Stamp File: Copy the dynamic stamp file and paste it into the following directory:
C:\Program Files\Tracker Software\PDF Editor\Stamps OR You can click 'open file location'
(Note: The file path may vary depending on your operating system.)

2. Open a PDF Document: Launch PDF-XChange Editor and open any PDF document.

3. Apply the Stamp: Select the desired stamp from the stamp palette and apply it to the document.

Note: To reset the incrementing number, select "Reset" Stamp and enter the desired starting number and/or prefix and select 'inc' stamp to apply stamp.

A red circular logo with a thick red border. Inside the circle, the text "AC-1" is written in a bold, white, sans-serif font. The "A" and "C" are uppercase letters, and the "1" is a numeral. A small hyphen is placed between the "C" and the "1".

AC-1

A large red circle with a thick border, containing the lowercase text 'res' in a white, sans-serif font, centered within the circle.
